Professional Summary

I am a grounded and solution-oriented Engineer with a wide variety of professional experiences. I am also passionate about Computer Informatics and I am willing to educate the coming generation about technology and other innovators.

Educational Background

Year	Institution	Course
July 2018	Politechnika Gdansk, Poland	Ocean Engineering
May 2015	SV College of Engineering	Mechanical Engineering

Employment History

Nov 2018 – Jan 2022

Gdansk University of Technology

I was part of a project sponsored by DNV-GL whereby I participated in Design and FEM Analysis for different models. I was also responsible for reviewing product designs for manufacturing or completeness. Lastly, I was the one responsible for preparing documentation for new manufacturing processes and engineering procedures.

Internship (April 2018 – October 2018)

Vard Engineering

I was responsible for preparing product and system layouts. I was also responsible for preparing technical reports for use by the engineering department and the sales personnel.
